

Common Denominators Between COVID-19 and Cancer

Dr. Smith Live 51st Episode

Why COVID-19 and cancer are both illusions

- **COVID-19** The high Spanish court recently ruled that COVID-19 is a bioweapon. Not one country in the worldwide world has isolated the COVID-19 virus. The so called COVID-19 Pandemic was congered up as a distraction to divert the world's attention away from the BIG reset: into digital currency and world socialism/communism to control all the people.
- **Cancer:** Is an illusion in that cancer is NOT a disease but an adaptation of normal cells to low oxygen levels and toxicity. There is only one type of cancer not 101 different types as put forth by the American Cancer Society, the AMA, Big Pharma, CDC, etc. One of my cancer patients who was diagnosed as Stage IV throat cancer had his cancer disappear in three weeks after the "splinters" (3 infected teeth) were removed.

The psychological function of COVID-19 and cancer

- **COVID-19:** The falsified death statistics, and false PCR positive COVID tests, and Pandemic label was designed to instill fear amongst the world's population. It is much easier to control people when they are in the fear mode. Most people who consent to "vaccine" do it out of fear.
- **Cancer:** The world's population has been brainwashed to experience fear when they hear a diagnosis of cancer. It has been a concerted effort on the part of mainstream media, the AMA, CDC, FDA, Big Pharma, doctors, American Cancer Society, and other agencies to reinforce the fear factor. Most people choose conventional cancer treatment out of fear.

The natural cures for COVID-19 and cancer

- **Natural cures for COVID-19:**

- a. Hydroxychloroquine
- b. Ivermectin
- c. Zinc
- d. Natural vitamin C
- e. Glutathione
- f. Curcumin
- g. Resveratrol
- h. Ozone
- i. Vitamin D₃

- **Natural cures for cancer:**

- a. There are no magic bullets for cancer
- b. The key is to define the “splinters” and remove them
- c. Must change the terrain to prevent cancer cells from surviving
- d. Key nutrients essential to rebuilding the body’s immune system:
 1. Glutathione
 2. Curcumin
 3. Organic, cold pressed omega 6 omega 3 oils: omega 6 oils act as a magnet drawing in oxygen into the cells preventing the abnormal cells from surviving.
 4. **Ozone:** burns up viruses, bacteria, chemical toxins, and raises the oxygen level of all tissues. Cancer cells cannot survive in a highly oxygenated environment.
 5. **GCMF** (glycoprotein macrophage activating factor): normally produced in the liver.
 6. **Geolic acid** (25% more effective than GCMF): Go to YouTube and search David Noakes.
 7. **Graveolens:** Ruta graveolens extract contains bioactive compounds which, independently of known photoactivatable

mechanisms, potently inhibit cancer cell proliferation and survival through multiple targets.

8. **Essiac tea:** the formula was given to Rene Cassie by a medicine man from the Ojibwa tribe in Ontario in 1919. The four key components are: Slippery elm, Turkish rhubarb root, Burdock root, and Sheep sorrel; The first three herbs function as detoxifiers. The Sheep sorrel functions to kill cancer cells.

9. **Capsaicin:** Causes cell-cycle arrest and apoptosis in *Estrogen Receptor*-positive and -negative breast cancer cells.

10. **The Gift (Mother Earth Labs):** Contains Humic, Fulvic acids plus 74 micro and macro minerals to raise the pH of the body.

11. **Cordyceps:** Offers a 65% success rate for killing cancer. Not all cordyceps are equal.

12. **Iodine:** Dr. David Derry, MD, PhD's book *Iodine and Breast Cancer* documented iodine's affect of causing apoptosis of cancer cells.

13. **Rick Simpson's oil:** Derived from boiling down a pound of Cannabis indica (high THC - Tetrahydrocannabinol) and applying it to skin cancer directly or taking a rice cornel size dose is reported by many to cure cancer.

14. **Apricot Kernels (B-17 - Laetrile):** Amygdalin from Apricot Kernels Induces Apoptosis and Causes Cell Cycle Arrest in Cancer Cells.

15. **Resveratrol:** Derived from Japanese knotwood and /or red grapes. Powerful antioxidant and anti-inflammatiry agent.

16. **Sulforaphane (from broccoli):** Anti-inflammatory, pro-apoptotic and modulation of histones are some of the more important and known mechanisms by which SFN exerts chemoprevention.

17. **Hoxsey Formula:** The secret formula turned out to be a mixture of red clover, prickly ash, buckhorn, alfalfa and potassium iodide.

"You Don't Have to Die" was the captivating title of Harry Hoxsey's 1956 autobiography. His great grandfather, a Kentucky farmer, had noted a cancerous growth on the leg of one of his stallions. The vet advised that the horse be put down, but farmer Hoxsey

decided to put the animal out to pasture and let nature take its course. Remarkably, the stallion recovered! Hoxsey had noted that the horse always grazed in one particular area and concluded that the plants that grew there must have been responsible for the miraculous cure. He then blended various parts of these plants to produce three specialized “cancer cures.” The secret formulas were handed down and eventually put to use by Harry’s father in treating cancer patients.

18. PolyMVA (minerals, vitamins and amino acids): is a nontoxic antioxidant composed of alpha lipoic acid and the element palladium. Developed in the U.S. by Dr. M. Garnett, the discoverer of the Second Genetic Code, it has already proven effective against many degenerative diseases, including cancer.

The Advanced Brain Tumor and Cancer Poly-MVA Hospital in Tijuana, Mexico was one of the first treatment centers for this therapy. Starting 23 years ago with treatment of brain tumors, they have now determined that the therapy is just as effective for virtually all types of cancer.

For testimonials and to order it online, check out the site:

How COVID-19 and cancer suppress the immune system

- **COVID** virus creates a cytokine storm; inflammatory cytokines, growth factors, enzymes all contribute to the progression of tissue damage, which overwhelms and suppresses the immune system.
- **Cancer:** All cancer cells produce the enzyme nagalase. Alpha-N-acetylgalactosaminidase (nagalase) accumulates in the serum of cancer patients and is responsible for deglycosylation of vitamin D binding protein, which is the precursor of vitamin D binding protein-derived macrophage activating factor (GcMAF), eventually leading to immunodeficiency in advanced cancer patients. The increase in nagalase activity in cancer

patients is due to the fact that cancer cells release nagalase, and nagalase activity reflects tumour burden, aggressiveness and progression of the disease up to the point that determination of nagalase activity is a non-invasive way of evaluation of cancer severity. Nagalase was discovered in childhood vaccines was to be reported by a group of Florida research physicians who unfortunately they all mysteriously died before their research was published.

How the truth about COVID-19 and cancer are suppressed

COVID: The mainstream media is controlled by the DEEP STATE. They put out false statements about the severity of the Pandemic, trashed the effective cures (Hydroxychloroquine, Ivermectin, zinc, vitamin C, quercetin, and vitamin D₃). They censored all the social media by taking down sites and articles espousing the noninvasive COVID cures. They published disinformation in professional journals (a Lancet article was published falsifying the effectiveness of Hydroxychloroquine and was later retracted), disinformation put out over the airways, and disinformed the doctors and set up ineffective hospital protocols designed to kill the patient. Any physician who went against the official narrative got fired from hospital and university positions. Examples were Dr. Simone Gold, who was fired as an emergency doctor for curing a COVID patient with Hydroxychloroquine. Peter McCullough, a Dallas cardiologist who is largely discredited by the scientific community for his assertions that the COVID-19 vaccines are unsafe and that early treatment options have been suppressed. Dr. Robert Malone, Inventor of mRNA technology, stated that it should NOT be injected into humans. His name was expounded from the article which appeared in Wikiapedia that spoke about the originator of the mRNA component of the COVID “vaccine.” The medical cartel character assassinates competent doctors, spreads false narratives, and scares the public with fear mongering (six foot social distancing, masks, lockdowns, mandated vaccines, vaccine passports, etc.).

Natural cures for cancer were also squashed by the medical establishment in order to mainstream chemotherapy, radiation, and

surgery as the only scientific treatments recognized by doctors. Read Daniel Haley's book, *Politics in Healing*, where he describes in detail 12 major natural cures that were trashed because it would have reduced the revenue stream from chemotherapy, radiation, and surgery.

- COVID-19 “vaccines” are a form of genocide. These “vaccines” make Hitler look like a kindergarten teacher compared to the mass killings and sterilizations being carried out by “modern” medicine.

A recent study from Israel documented that the effectiveness of COVID-19 “vaccines” is only 2 to 2.5 months!

- Cancer treatment is a form of genocide. Chemotherapy has been documented to have a 97% failure rate. Three Australian physicians did a literature review of the gold standard of chemotherapy treatment between 1998 -99 and showed that chemotherapy was 2.3% effective in Australia and 2.1% effective in the US. I mentioned this in my recently published book, *Cancer Deconstructed*.

I attribute the lower American results to the increase toxicity levels and poor diets among the Americans.

- COVID-19 “vaccine” treatment is only treating the symptoms, which are the ultimate result of poor nutrition, lack of exercise, clean air and water.
- Chemotherapy treatment for cancer is only treating the symptoms, which are the ultimate result of poor quality of foods especially the adulterated oils which turn the cell membranes into plastic, air, water, chemtrails, toxic dentistry, ubiquitous distribution of glyphosate, and EMFs.

- COVID-19 can easily be cured with Hydroxychloroquine, Ivermectin, zinc, vitamin C, quercetin, glutathione, curcumin, and vitamin D₃. Interestingly, three manufacturing plants that produced Hydroxychloroquine mysteriously burned down; one in Mexico, one in the US, and one in Thailand.

How a special form of meditation will resolve your COVID and cancer fears

The meditation is based on Nikola Tesla's magic of 36 and 9.

The meditation is a three step process:

Step #1: Select three positive affirmations:

- a. I have no fear of COVID
- b. I have no fear of cancer
- c. I will achieve outrageous health and wealth

Step #2: Meditate facing the east

East is the primal direction on Planet Earth

The strongest influence of natural law on the Earth comes from the Sun. And the Sun rises in the east because the Earth rotates to the east—at every moment of our lives we are traveling at hundreds of miles per hour to the east. So, when we face east, we align ourselves with the direction in which the planet is spinning, from which the primary influences of natural law come to us.

In the morning, as the sun rises in the east, nature comes alive—the energy of the day rises and we feel the positive effect. Recent research has also found that the brain is sensitive to orientation and that it functions differently when facing different directions.* This information can be put to good use in our daily lives. So, Face east when meditating, sleeping, and occupying your workspace.

When we face east, we are in tune with natural law; therefore:

- Face east to meditate.
- Sleep with your head (the pillow end of the bed) to the east. (Second best option is to sleep with the head to the south.)
- Work and study at your desk facing east (second best is to face north).

Note: Your meditation will benefit from facing east no matter when you meditate.

Step #3: Meditate three times a day while listening to the vibrational sounds of 369.

- Three stands for creative expression.
 - Six stands for family, harmony, and home.
 - Nine stands for humanitarianism, compassion, and philanthropy.
 - 369 symbolizes caring, providing for others, and philanthropy.
 - 369 also represents compassion, idealism, and creative expression.
 - Main frequencies of the meditation sounds are: 36Hz, 9Hz, 369Hz, 3690Hz.
 - 369Hz destroys unconscious blockages.
- Morning:** say your three affirmations three times while listening to Tesla's vibrational sounds.
 - Afternoon:** say your three affirmations six times while listening to Tesla's vibrational sounds.
 - Evening:** say your three affirmations nine times while listening to Tesla's vibrational sounds.

East: East is the direction in which the sun rises. It is the source of light, and inspiration—the source of life itself. It is the time of awakening, the beginning point. East tells us that it is time to get up, wake up, start moving. It motivates us to shake off our inertia and begin our day.

West: The sun sets in the West at the end of the day. Represents healing energy. It brings calmness and tranquility so that you can rest, relax, let go. The West puts you in the lap of the night.

North: The North is determined by the polar star, the symbol of stability; it is the fixed goal that never wavers. It represents unshakable conviction. Facing north gives direction in life. Whenever you become a little bit unstable, the grace of God pulls you in the right direction.

South: The South is associated with death. It offers complete rest. When our physical body is no longer capable of leading us on the path, then the compassionate protector of the South, Yama Raja, the Lord of Death, makes sure that we get rid of that vehicle and gives us a new one.
