Why is Energy Medicine more effective than conventional medicine?

Ans.: Healing frequencies permeate throughout the body instantaneously. By using healing frequencies, the receptors on the cell membrane get stimulated instantaneously causing a physiologic change within the cell. In contrast, swallowing a pill takes much longer to get into the bloodstream and travel around the 70 thousand miles of blood vessels.

What “diseases” can frequencies heal?

Ans.: Just about all “diseases” can be resolved with frequencies.

Is there science to substantiate how frequencies work?

Ans.: In the 1970s, a Russian researcher, Vlail Kaznachejev did 20,000 meticulous experiments in which he placed two glass flasks next to each other. One flask had healthy cells while the other had sick cells. After a few hours the healthy cells started to change into sick cells. Kaznachejev concluded that the sick cells gave off biophotons (energy packets) which caused the healthy cells to turn sick. This same principle applies to humans. One does not have to have direct contact with the actual pathogen to get ill. All that has to occur is to be exposed to the biophotons or energy field of a sick person. If a person's aura is weak

because of underlying health issues or nutritional deficiencies, they will come down with the same illness that is being projected. Interestingly, the reverse was also observed. Sick cells transitioned into healthy cells when exposed to healthy cells. The higher energy of the healthy cells caused the sick cells to transition back to health.

What are some of the magic healing frequencies?

Ans.: 528 Hz: This frequency is all about transformation and DNA repair. It is also considered as the frequency of love. Use 528 Hz to return your DNA structure to its original and perfect state. This strong frequency brings inner transformations and miracles into your personal life. DNA reparation process gives many benefits. It increases the amount of life energy, clears and brings back an awakened mind. This frequency activates awareness and creativity, helps to find deep inner peace. It also prepares the person for the deeper spiritual experiences and spiritual enlightenment. 528 Hz is the exact frequency used by genetic biochemists to repair broken DNA. It is the genetic blueprint upon which all life is based!

396 Hz: Turns grief into joy, helps with liberating guilt and fear. This 396 Hz frequency liberates the energy and helps on feelings of guilt. It cleanses hard feeling of guilt and boost your ability to find inner peace. The “UT” tone helps to release you from the feeling of fear by turning off the defense mechanisms. 396 Hz frequency overcomes hidden subconscious blockages and negative beliefs, helps to explore ideas that have led to your

situation today. Feeling of guilt often represents one of the most basic obstacle to realization. 396 Hz helps to fight it and enables to achieve goals in the most direct way. This ancient solfeggio frequency can also be used as a tool to return back to reality. 396 Hz frequency music builds strong emotional patterns. It realizes goals by creating a strong magnetic field of energy. Only those goals that have enough energy can be realized in our material reality.

285 Hz: This tone is useful when healing wounds, burns, cuts, or other form of damage. 285 Hz works on energy fields that are responsible for the perfection of human organs. This frequency influences mentioned fields by sending them a message to heal damaged organs. It also heals your energy and leaves your body energized. 285 Hz Solfeggio Frequency is directly connected to the inner blueprint for the perfect health and physical wellbeing, because it has an ability to remember the original form of the cell.

Frequencies for Pain Relief:

- **90Hz** stimulates beta endorphins, which are 1000 times more potent than any drug.
- **7Hz, 70Hz, 85Hz:** Acute pain.
- **76Hz:** For chronic pain.
- **174 Hz:** Pain relief

If you do not have access to a Rife machine, search YouTube for the above Rife frequencies and listen to the sounds.

Q. If illness is based on a person's low frequencies, how can they correct it?

A. A person's low frequencies can be corrected in two ways: one is to eat more organic fruits and vegetables. Real living food is loaded with packets of energy (biophotons), which will increase the strength of the aura. The second approach has two options: option one involves wearing the Tesla Energy Card® that has immune boosting frequencies imprinted in it. The second option is to imprint the same frequencies from the website **FrequencyShop.co** into a bottle or glass of water and drink the liquid.

Q. How does this work?

A. There are multiple frequencies that have been captured by sophisticated electronic equipment of immune boosters, antioxidants, anti-inflammatories, vitamins, minerals, and homeopathics that stimulate the body's defense mechanism to neutralize any viruses, bacteria, chemicals, or other toxins that make you sick.

Q. Do you have any case studies that prove the benefits of this technology?

A. Yes. My secretary had an attack of shingles in her right leg approximately 3 to 4 years ago. She was left with nerve damage, which caused her constant itching and pain. She had to wear a lidocaine patch to ameliorate the symptoms. Four weeks after I had imprinted the scalar energy and 18 healing frequencies into her crucifix, she told me that her itching and pain was totally gone.

Q. Is this technology effective against COVID, omicron, or influenza?

A. Yes. This technology is capable of digitizing the frequencies of hydroxychloroquine, Ivermectine, and other immune boosting supplements to enhance the body's immune system to combat the viruses. My IT person came down with the "seasonal" flu in October. He downloaded the frequency of Ivermectin on his smartphone and imprinted into water. Within 48 hours of drinking the water he stated that he was 100% back to normal.

Q. Is there a website one can go to, to get vibrational healing?

A. Yes. The **FrequencyShop.co** There are three subscriptions:
Silver Plan (lists 18 programs); **Gold Plan** (28 programs); and the **Platinum Plan** (18 programs).

1. Two programs for pain: Pain-Away I - topical issues; Pain-Away II for arthritis, intestinal pain, bone bruises, muscle and ligament injuries
2. Scalar Energy + 18 healing frequencies
3. Depression
4. Allergies
5. Anti-Aging
6. QuantumChloroquine
7. QuantumMectin
8. Infrared: great for healing injured tissues
9. Healing stomach/intestinal problems
10. Improving short and long term memory problems

Why is the World Health Organization taking away your access to vitamins and natural healing modalities?

Ans.: The answer is simple. To control the masses and thin the herd.
